Advantages to purchasing your Extrusions and Heat Sinks from Badger Global Components...

Quality - Badger Global assures the highest in quality from prototypes to production.

Large or Small Orders – Large or small orders are not a problem, we have shipments being made weekly and can combine your small orders with our other orders that allow us to very economically process your smaller orders.

Availability - After the initial lead time, which is typically about 8-10 weeks, Badger Global will stock your product in Wisconsin, this assures the customer that they will have product when they need every time. Typically shipping within 24 hours of release.

Flexibility - Badger Global accepts blanket order, the customer does not have to carry inventory, Badger will hold inventory for them.

Price - Due to the high volume of extrusions we purchase, we receive very favorable pricing from our manufacturers, along with consolidated shipments to keep shipping cost low. We pass these savings on to our customers.

Location - Badger Global conveniently warehouses your product in Southeastern Wisconsin, centrally located between Chicago and Milwaukee, typical shipping time is one day.
